

**Lani H. Rorrer**  
**President & CEO**  
**Lanmark Technology, Inc.**  
**Fairfax, Virginia**

Lani Rorrer has more than seven years of experience in the areas of intelligence and business management. For the past several years, she has managed the operations of her woman-owned technology firm, serving clients in the government and commercial sectors. Lanmark Technology (LMT), Inc. is a professional services company specializing in the provision of defense and intelligence support services; information systems design, integration, and ongoing ADP operations support; telecommunications and conference management services and facilities and program management support services.

LMT is organized around four business areas: Web-Based Technology Services; Intelligence and Defense Services; Information Technology Services and Facilities and Program Management Support Services. LMT's corporate approach to management, recruitment, staff development, project performance, and quality control is

geared towards assuring the delivery of outstanding professional services, products, and systems to its clients, and to do so on schedule, within budget, and in specific response to the technical requirements of each contract.

The success of the company is led by Ms. Rorrer, a United States Naval Academy Graduate and former Naval Intelligence Officer, holds a B.S. degree in Mathematics from the United States Naval Academy and a Master of Business Administration degree from the College of William and Mary's Graduate School of Business. She is also a candidate for a Masters Certificate in Government Contracting from George Washington University.

Before founding her company, Ms. Rorrer spent five years as a Naval Intelligence Officer as Deputy Director for Training Development at the Navy and Marine Corps Intelligence Training Center (NMITC), Damneck, VA, where she was also a Certified Training Instructor. She was responsible for the day-to-day operation and management of the Navy and Marine Corps's intelligence training curriculum providing intelligence training for Navy, Marine Corps, Coast Guard, civilian and foreign navy personnel. She also directed a team of experts in the development of a curriculum for 57 Navy and Marine Corps security and intelligence-related courses to be accessed via the Internet.

Prior to her tour at NMITC, she was an Air Intelligence Officer for a Patrol Reconnaissance Squadron in Kaneohe, HI, where she analyzed, assembled and disseminated time-critical intelligence information for squadron aircrews, senior military and civilian officials; wrote intelligence reports; and evaluated new exploitation techniques for state-of-the-art prototype hardware and software. She is also a recognized tactical intelligence expert in European, Middle Eastern, and Far Eastern military operations.

Ms. Rorrer served in many other areas of intelligence, security and management during her military career. As a former military officer, demonstrating leadership, dedication, integrity and knowledge, she applies the same principles in delivering quality services to LMT's clients and employees alike, resulting in her unmatched employee retention and satisfaction.
